

BULLETIN #2 SEPANG

Pit Lane working Zone Distance:

ピットレーン作業区間距離:

Teams must place **adhesive-coloured tapes** on the ground to identify the location where race cars need to stop during the Mandatory Pit Stop.

This marker is set from the yellow line (**painted by the circuit on the pit lane**) to the **black (concrete divider) line** indicator, as shown above.

All identification must be done before the start of Free Practice. **Officials in the Pit Lane will check the distance dimension specified for conformity.**

These adhesive coloured tapes **must be removed** after the completion of Race 2. Any failure to remove the adhesive tapes will be charged by the circuit management.
