

BULLETIN 9

Cars on the Grid - Positioning for Race 1 & Race 2

All cars must be centrally positioned within their grid boxes/rows.
Please refer to the markings shown in the photos below and ensure your driver stops precisely at the correct location.

Teams are asked to adjust the car's position if necessary.

From Row 3 to Row 15, we aim to maintain two straight and clean lines - Thank you for helping us present a professional and consistent grid.
